Hi Everyone,

The following medical items have been donated to Post 159. All are in new/nearly new condition.

1 pack of hearing aid batteries size 13

2 pair polarized black sunglasses

1 adjustable height home bed assist handle; slides under the mattress and on top of the box springs

1 wooden cane

2 metal adjustable canes

1 shower seat 2 commodes - complete

1 wheelchair

1 wheelchair foam seat cushion

1 wheelchair foam back cushion

1 folding walker, 5-inch wheels on the back, tennis balls on the front legs

1 folding walker with 5-inch wheels on all four legs, with hand brakes, seat and basket

1 Aluminum wheelchair ramp, main section is possibly 25ft long (we haven't measured it), one 5-ft x 5-ft platform, another short ramp, and two thresholds (each end), and hand railings. This was installed by a contractor working through the VA. We believe this ramp comes in 5-ft sections and can be configured for many situations.

The family would like these to go to a veteran or their family who might benefit from these items. Their father was a US Navy, Korean War veteran. A non-veteran or their family who might benefit from these items will not be turned away. If you, or a veteran you know might be able to use these, let us know.

Ted C. Sweeney, Commander 860-806-4428 tsweeney4960@charter.net
