1. Meeting called to order at 9 a.m. at the Sandy Brook Road bridge.
2. An inspection was led by GM2 Design to develop a punch list of items that need to be fixed, corrected or finalized before the Sandy Brook Road and Creamery Road bridges are deemed to be complete.
3. GM2, State of Connecticut DOT and the committee concluded that the Sandy Brook Road bridge was substantially complete—and would be ready for opening by the end of the day (12/1/23).
4. Following inspection of the Sandy Brook Road Bridge, the meeting moved to the Creamery Road Bridge.
5. GM2, State of Connecticut DOT and the committee concluded the Creamery Road Bridge was also considered to be substantially complete—and the bridge was opened shortly after the inspection was concluded.

Respectfully submitted,

Brad Bremer
First Selectman
